PATIENT & STAFF STATION/CALL POINT

Antimicrobial with Dual Priority

The CarePlus multifunction Call Point is a flush wall mount unit with a large push button for various nurse call stations. There are several colours and labels for different priorities and alarms, and it comes complete with a reassurance light and tone for patient reassurance. The CarePlus Call Point has antimicrobial protection / infection control built into the device to reduce risk and spread of infection, bacteria, and superbugs such as MRSA

PATIENT & STAFF STATION/CALL POINT

Antimicrobial properties:

The Lexan material contains built-in, organic anti microbial protection against serious bacteria. The anti microbial material achieves a 99% biocidal kill rate for a wide range of bacteria including;

- Methicillin-resistant Staphylococcus aureus (MRSA)
- Salmonella enteritidis
- Escherichia coli (E. coli)
- Listeria monocytogenes

The plastic is impregnated with broad spectrum technologies, reducing cross infection against the following micro-organisms;

- 13 Bacterial
- 2 Streptomyces
- 14 Fungal
- 3 Yeast
- 2 Algae
