# PATIENT & STAFF STATION/CALL POINT

## Antimicrobial with Single Priority

The CarePlus multifunction Call Point is a flush wall mount unit with a large push button for various nurse call stations. There are several colours and labels for different priorities and alarms, and it comes complete with a reassurance light and tone for patient reassurance. The CarePlus Call Point has antimicrobial protection / infection control built into the device to reduce risk and spread of infection, bacteria, and superbugs such as MRSA

### Authorised Distributor
